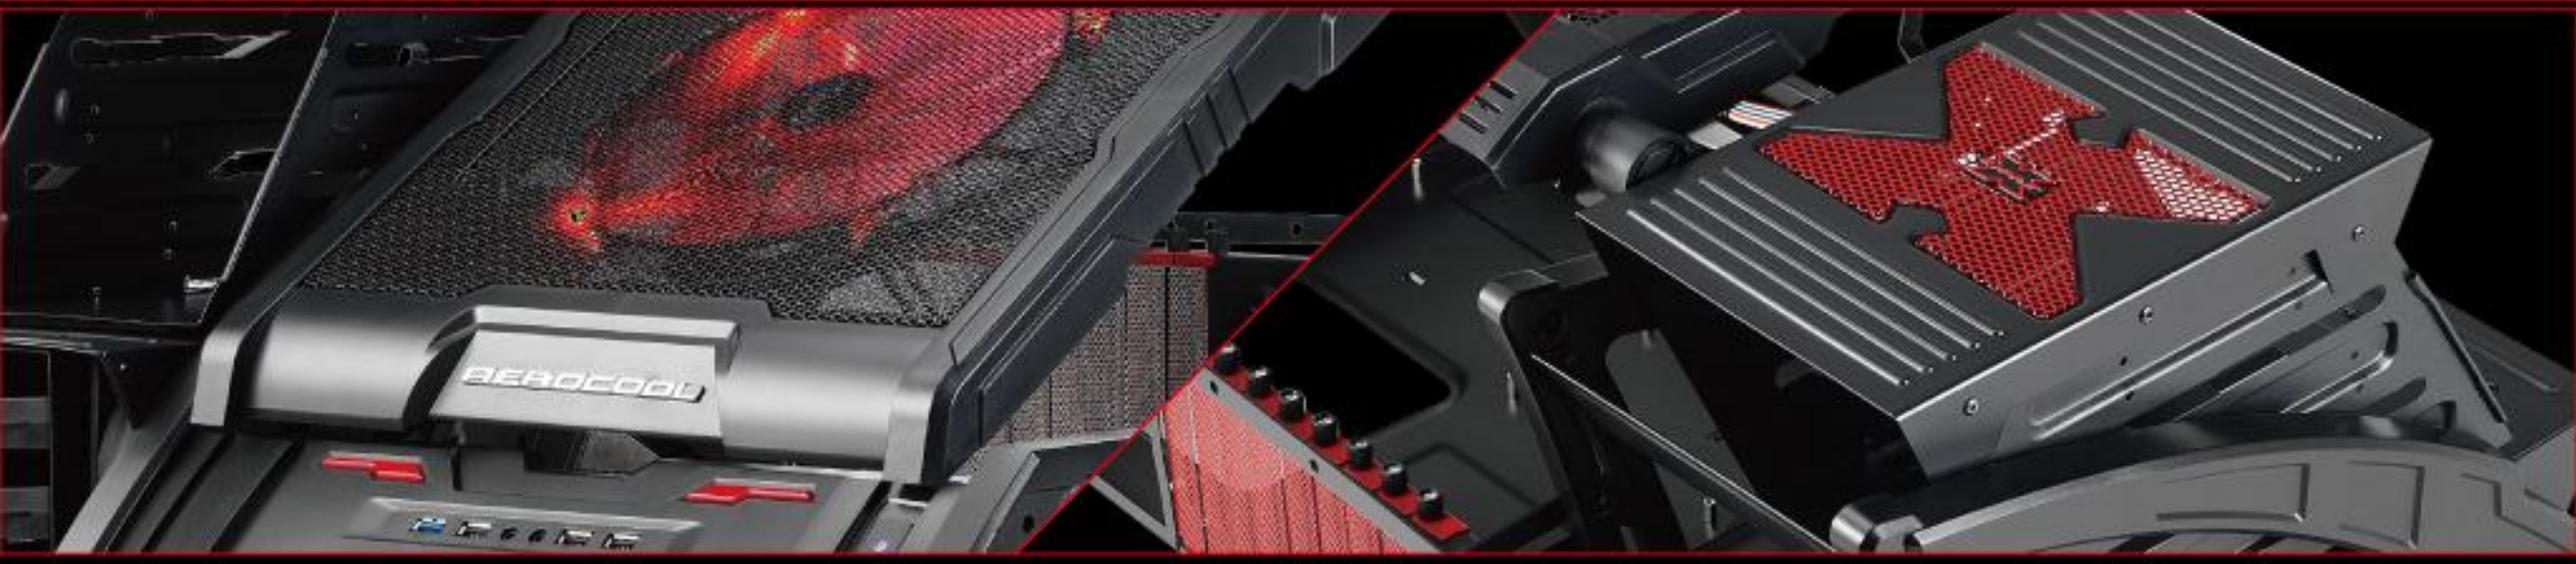
AEROCOOL

STRIKE X AIR

# STRIKE X AIR

CASE

## DESIGN CONCEPT



The new Strike-X Air, a brand new PC open case concept fully developed by the Aerocool design team that will make using a PC case a brand new experience.  Its openly structure is designed in a way so that it is easy to access components and extremely user-friendly to install and uninstall parts, not to mention the COOL Strike-X color scheme and the design style.

For those who spend a lot of time installing and uninstalling computer parts, this is a dream come true case that requires no more fastening and unfastening of screws to open or close side panels and everything is within an arm's reach and no more cluttering of cables.

For those who look for a cutting edge PC case, look no further, this is the one and only case of its kind that would most definitely be the center of the stage of everything!

For those who care a great deal about the heat dissipation, the openness of its design nature dissipates heat without the space confinement of a conventional PC case, plus, a 20cm fan is installed directly at the top of the Motherboard and CPU cooler which will not give any chance at all for any tiny amount of heat to circulate within.

No matter for what purpose the Strike-X Air is to be used, this case is the new kid on the block coming hard and strong at the PC market and you will be glad to own it before everyone else.

# STRIKE X ST BLACK / DEVIL RED CASE

## FEATURES

- State of the art Open Frame PC case design for all PC users!

- Excellent cooling performance for gamers and enthusiast.

- Ideal case for engineers and reviewers for benchmark testing.

- Solidly constructed "ALL BLACK" chassis interior of 0.7mm SECC Japanese Steel w/PCI plate and mesh highlighted in red.

- Supports longer high-end VGA cards up to 330 mm.

- Supports 3 x 5 1/4" bays and 3 x 2.5"/3.5" HDDs (hot-swap)

- Removable ODD cage for easy ODD installation

- 3 x SATA extension cables included

- 1 x USB 3.0 + 3 x USB 2.0 and Audio/Mic ports are easily accessible from the front panel.

- Pre-drilled holes for cable management with high-end rubber protection to help tidy up the cable mess.

- CPU holes is pre-drilled on the MB plate for ease of CPU cooler assembly.

- Includes anti-vibration pad to protect your PSU from shock.

- Supports the latest XL-ATX MB such as Gigabyte's latest X58-UD9 Motherboard and also has 10 PCI slots to support Quad VGA cards.

Water-cooling holes are pre-drilled to support water-cooling systems!!

1 x 20cm RED LED top fan included .

1 x 12cm RED LED fan for HDD cooling included.

## SPECIFICATIONS

| | | |
|---|---|---|
| Case type | : | Open Case |
| Material | : | SECC 0.7mm |
| Motherboard | : | Micro ATX / ATX / E-ATX |
| Case dimensions | : | 340mm (H) x 613mm (W) x 535mm (D) |
| Drive bays | : | 3 x 5.25" (Exposed) / 3 x 3.5" HDD or 2.5" HDD |
| Expansion slots | : | 10 |
| Max. length space available for PCI slots | : | 330mm |
| I/O ports | : | 1xUSB3.0/3xUSB2.0/2HD AUDIO |

## COOLING SYSTEM

| | | Top 200 x 200 x 30 mm "Quad RED LEDs" | Side 120 x 120 x 25 mm |
|---|---|---|---|
| Rated Voltage | : | 12V | 12V |
| Starting Voltage | : | <=9V(Power ON/OFF) | <=6V(Power ON/OFF) |
| Power Consumption | : | 3.0W | 4.68W |
| Rated Current | : | 0.25A | 0.39A |
| Speed | : | 800±200 R.P.M | 1500±10%RPM |
| Air Flow | : | 63.893 CMF | 84.817 CMF |
| Air Pressure | : | 0.363 MM-H2O | 1.171 MM-H2O |
| Noise | : | 24.4dBA | 33.0dBA |
| MTBF | : | 100000 hours | 100000 hours |

CASE

## AIR FLOW

Superb airflow - install up to 2 fans !!

1. Top - 1 x 20cm RED LED fan (included)
2. Side - 1 x 12cm fans (included)

# X-STRIKE AIR

CASE

## INSIDE

Top panel can mount 1x20cm fan to cool Motherboard at desired preset angles.

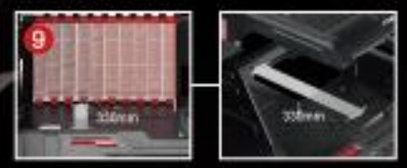
HDD rack with 3x HDD trays provide east installtion of HDDs.

Flashy diamond-cut aluminum Aerocool logo.

12cm fan installed at the side of the HDD rack to provide direct cool air for HDD cooling.

1 x USB 3.0 & 3 x USB 2.0

Removable ODD rack makes installing ODD an easy and convenient job.

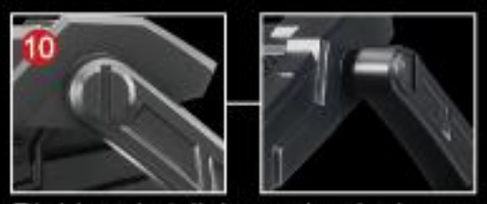


Sufficient depth of chassis for installing long cards

It is easy as pressing the tab to remove the ODD rack.

X styled metal mesh on top of the ODD rack to provide good airflow to cool ODDs.

## INSIDE



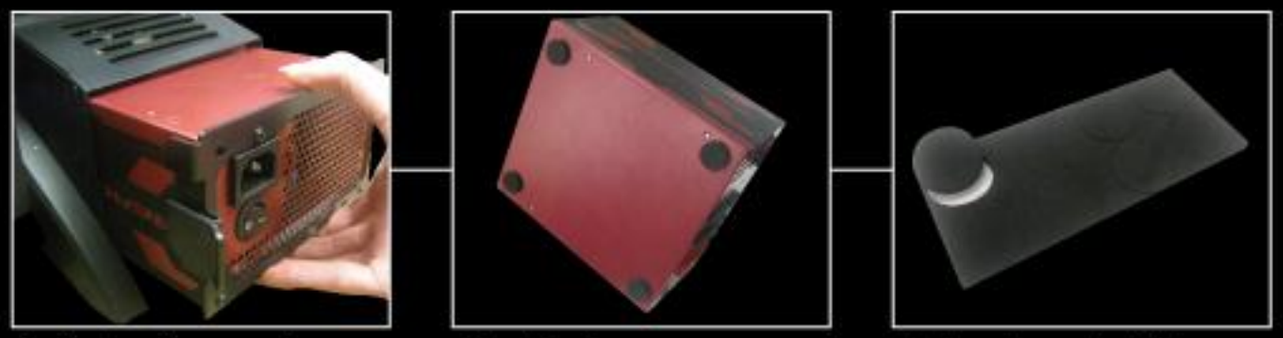
Rigid and stylish mechanical arm alike structure to support the weight of the top panel with 20cm fan.

Pre-drill pipe holes for water cooling tubes installation.

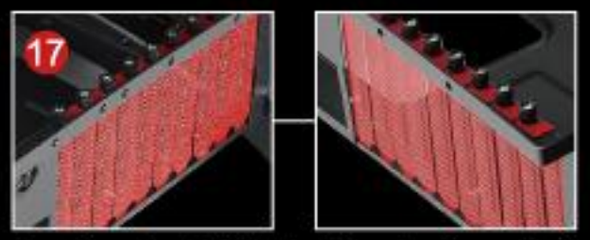
Rear insertion of the power supply that neatly tucked away from sight.

Grilled ventilation design on metal casing provide ventilation of hot air produced by the power supply.

3 x Hot-Swap Front-loading HDD bays



Antivibration pads are provided in the accessory bag to be placed at the bottom of the PSU to absorb vibrations.



Perforated PCI slot for better air flow
